## PROJECTS

### Portfolio - Personal Website

[View Website](#)

- Developed a personal website using Next.js and Tailwind CSS to showcase my projects and skills.
- Learnings:** Improved skills in Next.js for server-side rendering and static site generation, frontend development, responsive design, and personal branding through web development.

### Zomato Clone

[View in GitHub](#)

- Built a web app similar to Zomato using MongoDB, Express.js, React, and Node.js.
- Used Amazon S3 to store images, making the app more scalable.
- Added Google login for secure user access.
- Managed app state with Redux.
- Learnings:** Gained experience in full-stack development, cloud storage integration, and implementing secure authentication methods.

### Sociopedia - Social Media App

[View in GitHub](#)

- Created a social media app using MongoDB, Express.js, React, and Node.js.
- Used bcrypt to hash passwords for better security.
- Learnings:** Enhanced understanding of data security practices and how to build interactive, user-friendly interfaces.
